GHG Protocol

SUSTAINABILITY REPORTING

Specialized consulting and technical support for the publication of Sustainability Reports
GRI Standards

CIRCULAR ECONOMY

Measurement of circularity and consulting aimed at identifying new circular business opportunities

“ If we want to foster sustainable growth, we need to make sure that the most resource efficient and most ecological products on the market are known and recognizable. Providing consumers with reliable information on environmental impacts means enabling them to choose. ”

Janez Potocnik - EU Commissioner for the environment (2010-2014)
